¹¹ Canada Pension Plan: You can apply for and receive a full CPP retirement pension at age 65 or receive it as early as age 60 with a reduction, or as late as age 70 with an increase: <https://www.canada.ca/en/services/benefits/publicpensions/cpp.html>
¹² Critical Illness: Annual cost for a semi-private room in a long term care home in Ontario in 2016: <http://www.oltpca.com/oltpca/OLTPCA/LongTermCare/OLTPCA/Public/LongTermCare/FactsFigures.aspx>
¹³ Retirement: A Moneysense article indicates Canadian retirees are spending an average of \$2400 monthly. Using this average monthly rate, an estimate can be made to calculate a retirement financial figure. Assume a person who wants to retire at 65, will need \$610,501 saved assuming they plan to retire for 25 years, while spending \$28,000 a year. This amount will provide an annual income of \$28,000 (paid at the beginning of the year) for 25 years at an after-tax rate of return of 3.20%. The income is indexed to inflation of 2.00%. The before-tax rate of return is 4.00% and the marginal tax rate is 20%. www.moneysense.ca/save/retirement/canadian-retirees-spending-an-average-2400-a-month
